ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

MAY 21-JUNE 3, 1983

(Newsbriefs continued)

The new Herbst Emergency Service in the Joseph M. Long Hospital was formally dedicated on Monday, May 16.
The Herbst Foundation donated $750,000 for the construction of the new emergency service center, which has an area of more than 5,000 square feet, a third larger than the old emergency room. The expansion and modernization of the facilities improve the waiting areas for UCSF's 21,000 emergency visits each year and includes a special area for children. There are also areas for radiology exams, which eliminate the need for transporting patients to other areas of the hospital for x-rays.

A five-day series of lessons designed to explode advertising myths about smoking is available free to Bay Area teachers for use in conjunction with a May 26 TV broadcast of "Death in the West," one of the most powerful anti-smoking films ever made. The film will be shown on KRON, Channel 4, at 6 p.m.
The lessons were developed by researchers by UC-Berkeley and the Lawrence Hall of Science, with the help of Stanton Glantz, PhD, UCSF associate professor of Medicine. Glantz was responsible for the first showing of "Death in the West" on American TV, after it was blocked by the Philip Morris Co., manufacturers of Marlboro cigarettes.
Free copies of the curriculum are available to teachers by calling 841-3032 or writing to the California Nonsmoker Rights Foundation, P. O. Box 668, Berkeley, CA 94701.

Every two years, the Japanese government sends a delegation of physicians to the US to perform medical examinations on atomic bomb survivors. This year the team will be visiting UCSF the week of June 6 and conducting screenings and examinations for the Bay Area the weekend of June 11. Volunteers are needed to assist in drawing blood that weekend, and organizing conferences and a farewell reception for that week. For further information contact Jackie Richter at 648-6151 or Steve LeVine at 221-6110.

Volunteers are needed to participate in a Veterans Administration cooperative research study to compare alternative methods of treating problems related to blocked arterial blood flow in the legs. The blockage produces symptoms of leg pain after walking or at rest and can cause ulcers in the legs.
The study, which will be done at eight VA medical centers, is scheduled to begin on June 1 and will involve some 1,000 veterans who will be treated over a three- to six-year period.
Male veterans interested in participating in this study should contact Anton C. Pogany, MD, at x1220 or Sandra Perez, RN, at 221-4810, x3391.

Anyone wishing to reserve the School of Dentistry seminar rooms S 536, S 719 and S 723 should contact Isabel Sobozinsky at x2681; for seminar rooms D 1128, D 2009, D 3209 and D 3214, contact Lillie Rasmussen at x1778.

IT'S A SWITCH

The Chlamydia Research Laboratory, directed by Julius Schachter, PhD, professor, Epidemiology, Laboratory Medicine and International Health, has moved from the Parnassus campus to new quarters at SFGH, Building 30, fourth floor. The new number is 824-5115.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the time period June 4-17, will be **Tuesday, May 24, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

FRIDAY 3

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

One hundred forty-six physicians and 12 PhD candidates will receive degrees at the School of Medicine commencement exercises on Saturday, May 28, at 2 p.m. in Zellerbach Auditorium at UC-Berkeley. Jack de Groot, professor of Anatomy and Radiology, will deliver the convocation and students Elsa Aguilar and David Gettinger will be speakers from the senior class. Acting Dean Crede will present the students; Chancellor Krevans will confer the degrees.
The program also will include presentation of the prestigious Gold Headed Cane Award, which is given to the graduate who best exemplifies the qualities of the ideal physician; the Kaiser Awards for Excellence in Teaching, established by the Henry J. Kaiser Foundation, to outstanding faculty members; and 12 outstanding teaching awards given by the senior class.
Three graduating students will receive honors at a special awards ceremony on May 23—Alison Smith, the Fife Award in Surgery, and Elsa Aguilar and Robert Castro, the Henry J. Kaiser Family Foundation Merit Scholarship. In addition, the Alumni/Faculty Association, during their Homecoming, presented academic excellence awards to Allan Robert Brasier, Glenn Jay Jaffe, David Cutler Kaslow, Catarina Isabel Kiefe, Alison Lynn Smith and Steven Nelson Struve.
See the next issue of *Today & Tomorrow* for details on commencement exercises for the schools of Dentistry, Nursing and Pharmacy.

Five men and women will be given the highest honor that UCSF awards—the UCSF Medal—in recognition of their contributions to health education, community health care and public service.
The awards, which will be made by Chancellor Krevans at a dinner at the Stanford Court Hotel on May 25, will be presented to Robert Joy Glaser, MD, Ellen Magnin Newman, Seymour M. Farber, MD, Lucile P. Leone, RN, MA, and Malcolm S. M. Watts, MD.
Glaser, former dean of the School of Medicine and vice president of Health Affairs at Stanford, has been president and chief executive officer of the Henry J. Kaiser Family Foundation for the past decade. He is honored for his vision in helping to establish several UCSF programs including the Joint Program in Bioethics which has led to a brand new Division of Medical Ethics. Under his leadership the Foundation has supported research on the MediCal program, changes in the cost of medical care and on the application of psychiatry and behavioral sciences to other areas of medicine.
Newman, president of Ellen Newman Associates, is a noted civic and business leader in San Francisco who serves on the boards of a number of corporations. She is vice chair of the UCSF Foundation, director of the UCSF Radiology Research and Education Foundation, vice president of the SF Symphony Association and the Performing Arts Center Foundation and a member of the Mayor's Fiscal Advisory Committee. She is the daughter of philanthropist Cyril Magnin and the granddaughter of Joseph Magnin.
Farber, vice chancellor emeritus for Public Programs and Continuing Education at UCSF, served as vice chancellor from 1973 to 1978. He is widely known for his expertise in diseases of the chest and his pioneering work in the field of postgraduate education for health professionals. Since joining the faculty in 1942, he has led efforts to develop an effective liaison between the campus and the state

NEWS BRIEFS

(UCSF Medal continued)

legislature. At present, Farber is vice chair of the California Postsecondary Education Commission and chair of the Health Maintenance and Health Promotion Committee of the White House Conference on Aging.

Leone came to UCSF as a Regents Lecturer in 1966 after "retiring" from a long and distinguished nursing career, including 18 years as the country's top nurse—chief nurse officer and Assistant Surgeon General in the US Public Health Service. She was coordinator of International Students and Visitors for the UCSF School of Nursing from 1977 to 1982. Leone is a member of the Institute of Medicine of the National Academy of Sciences, an honorary fellow of the American Academy of Sciences, and recipient of a number of awards, including the Lasker Award of the American Public Health Association, the Nightingale Medal of the International Red Cross and the Distinguished Service Award of the US Public Health Service.

Watts, a specialist in internal medicine, has been on the faculty of UCSF since 1947. He is now associate dean of the School of Medicine and project director for the California Statewide Area Health Education Center System (AHEC), which has played an important role in education of physicians and other health professionals throughout California. Watts has served on a number of university and governmental committees, professional organizations and community groups, including the United Bay Area Crusade, the California Medical Association and the SF Consortium. He has been editor of the *Western Journal of Medicine* for 15 years.

The Joint Commission on Accreditation of Hospitals completed its review of the Hospitals and Clinics last month. Comments throughout the review process, and particularly during the summation conference, were highly favorable, according to Roger Boles, president, Hospitals and Clinics Medical Staff, and William B. Kerr, director, Hospitals and Clinics. The surveyors praised many facets of our operation and highlighted the excellent quality of care provided at UCSF, they declared. The final written recommendations will be forthcoming from the JCAH in the next few months.

A total of $60,000 will be awarded to three Department of Psychiatry junior faculty members and three visiting scholars at the Grete Simpson Awards Ceremony on Monday, May 23, at 5:30 p.m. at the Faculty/Alumni House.

The winners are: Victor Reus, MD, assistant professor, Psychiatry, and director of Inpatient Treatment and Research Service, LPPI; Steven Friedlander, PhD, assistant professor, Medical Psychology, LPPI Child Service; Jonathan Mueller, MD, assistant professor, Psychiatry, and assistant director, Consultation Liaison Psychiatry Service at the VA Medical Center. Also, visiting scholars Louis Sander, MD, professor of Psychiatry at the University of Colorado; Philip M. Lewis, PhD, professor and chair of Psychology at Auburn University, Alabama; and Alan K. Louie, MD, a resident in Psychiatry at the University of Chicago.

Established in 1981 through a bequest of John Simpson, the international financier and industrialist, the Grete Simpson Fund honors the memory of his late wife, who was a child psychologist.

The fund is used to advance the teaching and research missions of the Department of Psychiatry by attracting outstanding national and international visiting scholars and to facilitate the research development of junior faculty members.

A special workshop on grant writing will be held on Monday, May 23, in HSW 303 from 3 to 5 p.m. Sponsored by the Equal Opportunity Committee of the Academic Senate and the Office of the Academic Vice Chancellor, the workshop is intended primarily for junior faculty, postdoctoral fellows and advanced graduate students. All interested faculty also are invited to attend.

The workshop will consist of a panel discussion by several faculty members, followed by a question and answer period. All those interested in attending should call x1881.

Nobel Laureate Melvin Calvin, PhD, will present the Chauncey Leake Lecture on Thursday, May 26, at 3 p.m. in Cole Hall. His topic will be "Evolution and Climate." Calvin, University Professor of Chemistry at UC-Berkeley, won the Nobel Prize in Chemistry in 1961 for his work on photosynthesis. He is former director of the Laboratory of Chemical Biodynamics and former associate director of the Lawrence Berkeley Laboratory.

At noon, preceding the lecture, everyone is invited to celebrate Chauncey Leake Day in Saunders Court, including a Stretcher Relay Race starting at the steps of the Medical Sciences building, followed by a picnic lunch (hot dogs and soft drinks), a Child Care Center Bake Sale, and a bedding plant sale. The relay race will end in the Court around 12:30 p.m. followed by a presentation to the winner by Chancellor Krevans.

In addition to Thursday's events to honor Leake, two special presentations will be held on Monday and Tuesday, May 23 and 24. On Monday, Linda Hawes Clever, MD, chair of the Occupational Health Program at Pacific Medical Center, will talk on how to make your work place beautiful; on Tuesday, Tom Rolinson, associate administrative vice chancellor, will give an update on the "greening" of the campus by the Campus Beautification Committee. Both lectures will be held in Toland Hall, Room U 142, at noon.

For further information on Chancey Leake Day, or if you wish to register for the Stretcher Relay Race, contact Katie Menees at x4421.

The formation of a National Council of Advisors for Langley Porter Psychiatric Institute has been announced by Chancellor Julius R. Krevans, MD, and Robert Wallerstein, MD, chair of the Department of Psychiatry and director of LPPI.

Composed of 12 distinguished business and professional leaders, the council will meet twice a year to provide advice from a national perspective on issues affecting mental health care, education and research.

In addition to serving as advisors, the Council will assist LPPI in raising funds from private sources.

Council members include: Chair Donald D. Doyle, author of the Short-Doyle Act and recently retired senior vice president of Johnson & Higgins; David W. Allen, clinical professor, Psychiatry; Sally Avery, farm manager, Family Farms of Indiana; Erik Erikson, professor emeritus, Harvard; Seymour M. Farber, MD, vice chancellor emeritus, UCSF; Seymour S. Kety, MD, professor, Neurosciences, Harvard; Mae Pape, community service manager, Transamerica Corp.; Charlotte Poole, member, Board of Trustees, UCSF Foundation; Alexander Simon, MD, former director, LPPI and former chair, Psychiatry, LPPI; Steven Thompson, chief of staff, Office of Speaker Willie Brown; James A. Watson, MD, internist, Arlington Medical Group, Inc., Oakland; and Alfred S. Wilsey, Sr., chair of the board, Wilsey-Bennett Co.

Two special meetings will be held on campus Tuesday, June 7, at noon in HSW 303 and at 7 p.m. in Toland Hall to bring the campus and community up to date on the Long Range Development Plan proposals. To be discussed are the proposed Vision Center and the surface parking lot on the west side of the campus and the proposal for housing at the Polytechnic High School site.

As part of the campus' studies to determine the feasibility of housing for students, staff and faculty at Poly High, a questionnaire will be mailed to a random sampling of the campus community in the next three weeks. All responses will be kept confidential by the marketing firm handling the project.

Nominations are now being accepted for the Dr. J. Elliot Royer Award, which will be presented to the SF or Easy Bay physician who in recent years has made a significant contribution to the field of neurology.

The award alternates each year between the fields of neurology and psychiatry. It includes a cash grant of $15,000, established under an endowment from the late Royer estate, which is awarded by the UC Regents upon recommendation of a committee consisting of the dean and two faculty members of the UCSF School of Medicine and the presidents of the SF Medical Society and the Alameda-Contra Costa Medical Association.

Letters of recommendation should be submitted to the Royer Award Committee, c/o School of Medicine Dean's Office, S 224, by Thursday, June 30. Nominees must be actively engaged in the practice of medicine in San Francisco, Contra Costa or Alameda County, but not necessarily on a full-time basis.

The second annual Milo E. Rowell Memorial Lecture will be presented by Sherman M. Mellinkoff, MD, dean of the UCLA School of Medicine, on Thursday, May 26, at 5 p.m. at the Milo E. Rowell Education Building Auditorium, 2615 E. Clinton Ave., Fresno. He will speak on "Medicine and Polis."

Mellinkoff, a master in the American College of Physicians and fellow in the Royal College of Physicians, is former chair of the American Association of Medical Colleges and in 1981 received the prestigious Abraham Flexner Award from that organization. He has been with UCLA since 1953 and dean of the School of Medicine since 1962.

Rowell, a practicing attorney in Fresno, led community efforts for more than 30 years to establish a UC medical school program in the Fresno-Central San Joaquin Valley. In 1975 the program was inaugurated and Rowell received the Gold Medal, the highest award of the UCSF campus, in recognition of his contribution to UC and to medical education in California. Rowell died in 1977.
